

Martin 24 Fleet

Martin24x@groups.io

The Martin 24 fleet is comprised of Martin 241s and Martin 242s configured in accordance with a fleet standard enabling them to race without the need for handicapping. Fast and user friendly, Martins are well-suited to the Columbia River racing scene.

The Martins are appreciated by beginners and experts alike. The Martin 242, which was out of production for many years, is again being produced in the Southern California area because of the resurgence of interest in this speedy, nimble racer.

The Martin 241 and 242 are high performance yet family-friendly day racers with a three sail inventory – main, jib, and spinnaker. The roller-furling jib dramatically simplifies boat handling. The 210% spinnaker is a delight to trim, giving these boats the ability to consistently deliver excellent downwind speed – as high as 11 to 12 knots when the wind is really up.

The Martin 24 Fleet specializes in competitive racing and friendly socials. Newcomers can expect help and support with every aspect of fleet racing, from boat and sail trim to potluck and bar recipes.

At the end of each racing season, the Martin 24 Fleet recognizes one boat as the Fleet Champion. Boat performance is tabulated at season end based on each boat's finish record.

Owners of these boats interested in competitive level racing in a fun, friendly, and supportive fleet are encouraged to join. Give a call for your own ride on a Martin, or visit our fleet web page.

FLEET CAPTAIN:

David Paul
